

Cingulofrontal Interactions and the Cingulate Motor Areas

Robert J. Morecraft and Jun Tanji

Chapter contents

Goals and Organization of this Chapter	114	Cingulate Motor Functions	130
Overview of Monkey Cingulate Cortex	115	Somatotopic organization	130
Pregenua Areas 24 and 32 and Subgenual Area 25 Connections	115	Motor control functions	130
Anterior Cingulofrontal Connections: Midcingulate Area 24'	117	Cognitive Aspects of Behavioral Control	131
Posterior Cingulofrontal Connections: Areas 23 and 31	120	Reward-based control of behaviour	133
Retrosplenial-frontal Connections: Areas 29 and 30	122	Error detection, behavioral monitoring, and conflict monitoring	133
Frontal Interconnections of the Rostral and Caudal Cingulate Motor Areas	123	Human Studies	135
Intrinsic Cingulate Connections	127	Motor control functions	135
Summary of Cingulofrontal Interconnections	128	Executive control, conflict/error detection, action-outcome monitoring	136
Dorsolateral prefrontal-cingulate connections	128	Summary of the Properties of the Cingulate Motor Areas	136
Orbitofrontal-cingulate connections	129	References	137
