

Hypnosis and Cingulate-Mediated Mechanisms of Analgesia

Marie-Elisabeth Faymonville, Brent A. Vogt,
Pierre Maquet, and Steven Laureys

Chapter contents

Goals of This Chapter 382	Hypnotic Alteration of Cingulate/Forebrain Circuitry 391
Overview of the Hypnotic Experience 383	Circuit Model of Hypnoanalgesia 393
Forebrain Mechanisms of Hypnosis 384	Some rules of circuit modeling 393
Aspects of Hypnotic Experience Mediated by Cingulate Cortex 385	Hypnotic block of thalamocingulate processing: Key to hypnoanalgesia 394
Surgical Hypnoanalgesia 387	Hypnosis as an Interventional Alternative 395
Hypnosis in the Pain Neuromatrix 388	References 395
Mechanisms of Cingulate-Mediated Hypnoanalgesia 389	
Cingulate Regulation of the Descending Noxious Inhibitory System 390	
Cingulate inputs to the PAG 390	
Opiate intervention into the DNIS 390
