

The Role of the Anterior Cingulate Cortex in Posttraumatic Stress and Panic Disorders

Lisa M. Shin, Paul J. Whalen,
Roger K. Pitman, and Scott L. Rauch

Chapter contents

Goals of This Chapter 454	Localization of Functional Changes in ACC 459
Symptoms and Neurocircuitry Model of Posttraumatic Stress Disorder 454	Panic Disorder: Symptoms and Neurocircuitry Model 459
Functional Neuroimaging: Neutral State 455	Functional Neuroimaging: Neutral State 459
Functional Neuroimaging: Symptom Provocation 455	Functional Neuroimaging: Symptom Provocation 459
Script-driven imagery 455	Functional Neuroimaging: Cognitive Activation 460
Combat audiovisual stimuli 456	Structure and Neurochemistry 460
Functional Neuroimaging: Cognitive Activation 456	Pathophysiology or Vulnerability? 461
Anterior Cingulate Cortex/Amygdala Correlations in PTSD 457	Summary of the Role of ACC in PTSD and PD 461
PTSD Treatment Studies 458	References 461
Structure and Neurochemistry 458
