

Impact of Functional Visceral and Somatic Pain/ Stress Syndromes on Cingulate Cortex

Stuart W. G. Derbyshire and
J. Douglas Bremner

Chapter contents

| | |
|----------------------------------------------------------------|------------------------------------------------------------------------------|
| Goals and Rationale of This Chapter 500 | Overlap of Functional Pain and Stress 505 |
| Irritable Bowel Syndrome 501 | Depression Influences Cingulate Pain Processing 506 |
| Neuroanatomy of Functional Pain: Visceral Syndromes 502 | Cingulate Inactivation during Depression 507 |
| Fibromyalgia 503 | Animal Models and Links between Pain and Stress Syndromes 508 |
| Neuroanatomy of Functional Pain: FM 503 | Cingulate Links to Visceral and Somatic Pain and Stress Syndromes 509 |
| Non-specific Low-Back Pain 503 | References 509 |
| Neuroanatomy of Functional Pain: NSLBP 504 | |
